

Agenda for BDCP Admin Draft REIR/SEIS Fish and Aquatic Resources issues

Thursday June 4, 2015 3:00-5:00pm

Bonderson Building Room 422

Conference Line 1-877-423-6338 Passcode: 914721

- 1) Introductions
- 2) Overview of layout of RDEIR/SDEIS
- 3) In-Delta Fishery Questions
- 4) General questions

Fridays meeting will be held at NMFS San Joaquin Room from 10:00-11:30 and cover:

- 5) Physical modeling and upstream analyses questions.
- 6) Any follow up questions

Some Questions include:

1. What model was used to evaluate an effect?
2. What output was the metric to evaluate an effect?
3. What are the results for the baselines and alternatives?
4. What pages in which document do I find the information above?

Discussion topics and document location for:

1. Temperature results on Shasta, American, and Stanislaus rivers during egg, fry, and adult salmonids periods.
2. Monthly river releases during Sept through December related to stranding and dewatering.
3. Juvenile production of juveniles
4. Juvenile survival through Delta
5. Monthly OMR flows
6. Salvage-OMR or other salvage related results
7. Monthly delta inflow, exports, and NDOI
8. Tracy/Skinner facility evaluation and improvements.
9. Results from any Life cycle modeling
10. sturgeon bypass stranding, juvenile production, and temperature results.
